GOING SOLAR

TIMELINE

1. ONLINE SURVEY

Your journey begins with a quick (2-minute) survey which you can find at conexsol.com. [Here](#), you'll input some basic personal information.

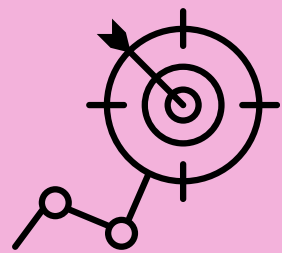

2. QUICK CALL

After approval, you will get a quick call from a representative. Be ready to share some more details about your project.

3. PRE-PROPOSAL

In this step, we calculate your savings, investment amount, and energy-generating capabilities and present them to you.

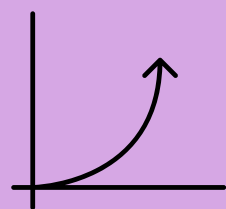

4. INSPECTION

If you liked what you saw, our team of engineers will survey your structure to evaluate the conditions of your roof and surrounding areas.

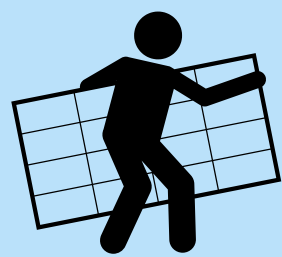

5. NEGOTIATION

Now, we have all the information we need to give you a clear quote of how your investment is going to look. Done deal!

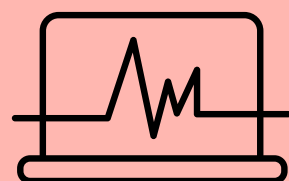

6. INSTALLATION

Once a deal has been reached and the structure is approved for installation, we'll send our team of professionals to begin.

7. CARE PROGRAM

Welcome to the family! After installation, you'll be granted two years of [Conexsol Care](#) for free! This includes remote monitoring and cleaning services.

This whole process takes between 4-12 months. Depending on the scale of the project.
